Credit Card on File Policy

Advanced Dermatology & Skin Surgery offers a Credit Card on File program as a convenient method of paying for the portion of your services that your insurance policy requires you to pay such as copay, deductible, and co-insurance. Your credit card information will be kept confidential and secure. This policy has been implemented to simplify and enhance your patient experience, and to simplify our business operations.

Q & A about Credit Card on File

How does this work? At patient registration we will ask you to sign a credit card on file agreement. As part of the agreement you will be able to set a maximum to be charged to your card. Charges that exceed this maximum require verbal authorization from the card holder prior to processing payments. At checkout, fees due at the time of service will be paid using the card on file unless you elect to pay by an alternative method.

What are the benefits to me? You can use your credit card on file to pay for copays, coinsurance, and deductibles at future visits. It will make checkout easier, faster, and more efficient.

What if I don't have a credit card? It is our policy that payment is due at the time of service. You may also keep your Health Savings Account (HSA) or Flex Spending Account (FSA) credit cards on file. If you do not have either of these types of cards, then you can use a debit or credit card. We accept Visa, Mastercard, American Express, and Discover.

How can I be assured that my credit card information will remain safe? We are under the strict rules and guidelines of Payment Card Industry (PCI) Compliance, and HIPAA Compliance to protect patient privacy and credit card information is considered protected health information. Open Edge, our credit card processing vendor, will store your information on a secure and encrypted site, which will enable us to run bank card transactions on our computer system. Our employees will not have access to your bank card.
